Yousef Saeed Hakeem

Dayrut, Egypt yousefsaeed668@gmail.com +201203862400 in/yousefsaeed668 yousefportfolio.vercel.app

SUMMARY

Skilled Frontend Developer with a strong background in building responsive and user-friendly web applications . Proficient in modern web technologies such as ReactJS, Next.js, and TailwindCSS,

EXPERIENCE

Front-End Developer

Wavyi   **September 2024 - April 2025，Remote**

• Built and optimized responsive user interfaces using Next.js, enhancing performance and accessibility.

• Collaborated with backend developers to integrate APIs and ensure seamless user experiences.

PROJECTS

Budget Tracker Using Nextjs

github.com/YousefSaeed668/budget_tracker

• Built a budget Tracker management website (Next.js, Clerk, Shadcn UI) with user authentication and multi-currency support.

• Developed functionalities for income/expense tracking with custom categories, balance calculation, and insightful graphical reports (Recharts).

• Enabled data export (export-to-csv) and transaction history management with advanced filtering and sorting for comprehensive financial overview.

Realtor Clone ReactJs

github.com/YousefSaeed668/realtor-clone-react

• Developed a real estate listing platform (ReactJS, TailwindCSS, Firebase) with user authentication (Gmail/email/password).

• Implemented features for property listing (sale/rent), address verification with map integration, and user management (edit/delete).

Fullstack Ecommerce Using Reactjs And Firebase

github.com/YousefSaeed668/fullstack-vite-ecommerce

• Developed a fullstack e-commerce platform (React, React Query, Redux Toolkit, Material UI) with comprehensive admin functionalities for product and order management.

• Implemented a user-friendly shopping experience with features like product browsing, shopping cart, secure checkout (Stripe), customer reviews, and order history.

• Utilized Firebase for backend services and Tailwind CSS for a modern and responsive design.
